Finding the Courage To Truly Know God

Thursday 11/9 – Sunday 11/12, 2023

With **Erena Bramos**

“When speaking of God, it is important to understand that all divine aspects are duplicated in man, who lives and has his being in the same conditions, principles and laws as those pertaining to Cosmic Intelligence. They are both the same in essence, differentiated only by a question of degree. Self-realization then means activating the maximum potential of God in oneself.” PRS-3

To be willing to let go of all ideas, and beliefs, of who we think we are and what Life is all about, the Guide always reminds us is the ultimate soul task... the most perfect gift we can offer Life, as it is only then that we can know the presence of God as spontaneous intelligence to be our real self. It is only thus that we can allow the Life force which permeates the whole Universe to work through us and freely manifest Gods will.

To align with the courage to live life without these beliefs is often a frightening task, the Guide continues, as it is through the holding onto these beliefs that we feel safe when are separated from our True Identity....our being only an expression of All that has been, and All that will ever be, created.

The willingness to bear this fear till we have cleared all the obstacles in the way of anchoring our experience in the knowing of God as spontaneous intelligence as well as in the power of the laws which govern Life, in their immutable and inexorable perfection will allow Spirit to reveal to us *that “the beauty and truth of creation is bliss, pleasure supreme, and fulfillment without satiety.” PRS-3*

This weekend will be an invitation to come together and support each other to go deeper into our journey to align with these truths that our hearts already know.

To prepare for our journey together, read Pathwork lectures (REVIEW the 3 June SD modules + READ PRS-3):
